Budge Cannot Take Outing—Dr. I. C. Budge's family is nicely located in Logan canyon where they expect to spend several days on their annual summer outing. Dr. Budge is unable to spend his time with the family owing to the rush of business in the city.

Christensens in Accident—A telegram from Portland, received Sunday by C. A. Nichols of Salt Lake told of an accident which occurred at Bay City, Oregon, Friday in which a Portland man was drowned and Mose Christensen and son Victor, narrowly escaped death when a gasoline fishboat was overturned by a huge wave.

Successful Birthday Party—On Saturday Mrs. Robert Murdock planned and successfully carried out a delightful birthday party in honor of her daughter Mrs. Gilbert Cole. The party motored to the camp of P. A. Thatcher in Logan canyon where the afternoon was enjoyed in social chat, after which a trout dinner was served. The party returned home late in the evening.

College Grill Opens—The College Grill, the new cafe on Main street opened up one day earlier than was expected. The first meals were served on Sunday. The management were well pleased with the patronage received on the opening day. Messrs. Andrews and Carlisle, proprietors are hustlers and are out for business. With the kind of place they say they are going to conduct there is no reason why they should be disappointed.

Death of Young Lady—Miss Millie Feltman of Richmond, aged 18 years died at the local hospital yesterday morning from a case of cholera. The disease had taken hold of the young lady in a grave form. She had been undergoing local treatment for some three weeks. The body was taken to the home of her parents in Richmond yesterday. Her parents were Mr. and Mrs. Andrew Feltman.

CANADIANS SEEK ALASKAN FOXES
Washington, July 25.—A number

of Canadians have written to the department of commerce seeking to buy some of the blue and silver foxes from the government's preserves in Alaska, but no citizen of the United States has made similar request, although the department is anxious to get some Americans to go in for fox breeding.

Assistant Secretary Sweet declared today that good profits await those who take up the industry. The government, he said, has a number of small islands off the Alaskan coast which it will lease to anyone who desires them for fox farming and at the same time the government will furnish breeding animals at low prices.

There are several fox raising establishments in Canada, said Mr. Sweet which are reported to be making big profits and as the skins bring fancy prices in London, center of the fur selling trade, he thought citizens of the United States should be reaping part of the returns.

JOHN SARGENT OF JACKSON HOLE IS DEAD

Self Inflicted Gunshot Wounds Are Believed to Have Caused Death of Occupant of Half Million Dollar Home

Denver, July 25.—News has reached here tonight of the recent finding of the body of John D. Sargent the solitary occupant of the famous half million dollar Swiss cottage built by Robert Ray Hamilton, a wealthy New York man, in the remote Jackson Hole district in northwestern Wyoming. Sargent was found in the house and evidently died from self inflicted gunshot wounds.

Two letters, one addressed to his aged mother in New York and the other to his wife in California were lying upon a table and these were mailed without opening. Hamilton built the house in 1890 and lived there several years with Sargent and his wife. One day Hamilton's body was found floating in the lake and mystery of his death has never been explained. Some months later Mrs. Sargent fled to neighbors bearing evidence of terrible mistreatment which she refused to explain. She died shortly after and Sargent left the region, returning about two years ago with the second Mrs. Sargent.

BURLESON CLAIMS CHANGE IS LEGAL

Postmaster General Presents Argument Before Committee As To Parcels Post

Washington, July 25.—In an answer to criticism of his proposed reduction of rates and the increase of size of parcel post packages, Postmaster General Burleson appeared today before the senate postoffice committee. The postmaster general read a letter from the interstate commerce commission stating that it was satisfied conditions were such as to prevent the carriage by the parcel post of many articles and that the proposed changes were in order to promote the service to the public.

Senator Bristow said he believed the post master general has authority to change the rates and zones if the interstate commerce commission approved. "I feel that the congress wanted the postmaster general to go ahead and improve this service and not to continue standing still," continued Burleson.

"We are going to make money on this new business and we will be able to make further reductions in rates."

So urgently did Senators Bristow and Bryan attack the proposition that the charges would result in increased profits for the government that little was said about the power of the post master general to make such changes. Later in the day Burleson demonstrated his determination not to allow his plans to be interfered with by issuing the final order putting the new regulations in force August 15.

Another meeting of the senate post office committee was called for tomorrow. At that time Senator Bryan will urge a favorable report on his bill to repeal the authority of the postmaster general to make changes of the nature in question.

PIONEER DAY AT MENDON

(Continued from page one)

Mrs. Laura Hardman and daughter Clotzel are visiting this week in Wellsville, guests of Mrs. David Hendry.

Billy Longstroch will move his family to Pocatello valley on Tuesday. The Baker Brothers with their sister Mae Baker went to their farm in Pocatello valley Monday.

Miss Lillie Winergren of Logan returned home Saturday. Mrs. Greaves and Mark Howard of Salt Lake gave Mendon a short visit Saturday and Sunday.

Mr. and Mrs. Will Buist of Buist,

Idaho, are visiting with relatives and friends for a few days.

Mrs. Emer Richards, Willard and Enoch Richards returned to their homes in Buist, Idaho Wednesday.

Mrs. Alexander McQueen of Idaho is a town visitor.

LOGAN CITY HAS MUSICAL ARTISTS

Continued from page one.

was extended an invitation to come in and listen to several choice numbers." To say that I was surprised and delighted is expressing it mildly and I was loath to depart on my weary way leaving behind me the sweet strains of violin and piano though carrying with me recollections of an exceedingly pleasant hour and the firm intention of frequently passing the Fogelberg studio in my future wanderings.

Prof. Fogelberg is himself a life long student of the violin and piano and an exceptional artist as well as instructor as is evidenced by the work on the violin of little Miss King who has been under his care but a year past and who bids fair to become an excellent and finished artist. Listening to her rendition of that old-time melody "Old Black Joe" I became entranced and can truthfully say that I never heard it more beautifully arranged, with variations, or more perfectly executed than by this bewitching little Miss. Her action is very clever which with the ease and gracefulness that seems to come so natural to her gives great promise of bringing to her an enviable reputation before the public.

Mrs. Fogelberg is of inestimable service to her husband and family in their music, being also an exceptional artist on the piano.

Such rare ability as belongs to this family of artists can not long be hidden away from the public and it is earnestly hoped that Professor Fogelberg and family can soon be induced to share their gift with all lovers of real music.

Professor Fogelberg's little eleven-year old daughter, Thelma, not only plays the violin with wonderful sweetness but is equally as proficient on the piano. Her rendition of Hexentanz (Witches Dance) was truly wonderful.

TORPEDO SUPPLY IS VERY LIMITED

Congressman Discovers Dangerous Lack of Ammunition For Little Craft

Washington, July 25.—Discovering that the torpedo boat flotillas in case of war, would virtually be useless after they had discharged 700 torpedoes has aroused Representative Britten of Illinois, Republican member of the house naval affairs committee. That number of torpedoes, according to Mr. Britten, is the sole stock on hand in the United States navy, and the two factories which manufacture the death dealing engines can turn out only a limited number each year. Mr. Britten today announced his intention of introducing a bill appropriation \$400,000 to double the capacity of the naval tor-

pedo boat plant at Newport, R. I.

The New York member is recently returned from a tour of inspection of the Atlantic coast navy yards taken with his fellow members of the house committee. He declared that of the stock of 700 torpedoes many are not new and that their replacement would be a serious problem in war time because of the limited capacity of the two producing plants, one of which is a private concern.

The navy torpedo plant at Newport Mr. Britten said, he discovered, has a capacity of only 100 torpedoes a year. The private corporation under pressure, is capable of turning out twice that number per annum.

He added that depletion of the existing stock would necessitate high pressure work by both plants to provide even a limited number of torpedoes for the small craft and for the torpedo tubes of the battleships and cruisers.

SINCERITY OF THE UNITED STATES IS QUESTIONED

Leading Newspapers of Tokio Continue Comments on California Alien Land Law

Tokio, July 26.—Some of the leading newspapers today accuse the Japanese cabinet of lack of diplomatic adroitness in the negotiations connected with the California alien land ownership legislation. They urge that advantage should be taken of Mexico's friendliness in order to further Japan's cause. At the same time they question the sincerity of the United States.

M. Hashimoto, vice minister of commerce, made the following statement today in connection with Japan's participation in the Panama Pacific exposition.

"The authorities understand that it is reasonable for Japanese merchants

to refuse to exhibit at the Panama-Pacific exposition owing to their natural resentment against the alien land ownership bill, but such participation would ease the situation and the Japanese government hopes that the nation will send as many exhibits as possible."
